

Community Memorial Health System

PI Project's name: *Improving Timeliness of Nimodipine Administration*

Team members: *Names of all team members including Ad hoc*

Aim: Indicate the goal of the project: *To improve the timeliness of Nimodipine administration within 24 hours of arrival to 90% by end of August 2021 (SMART)*

Plan: List action/s were planned

- *Inform Neurologists of the measure requirements*
- *Change the order sets*

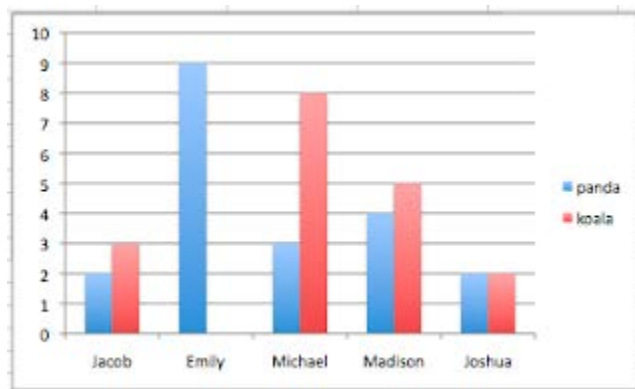

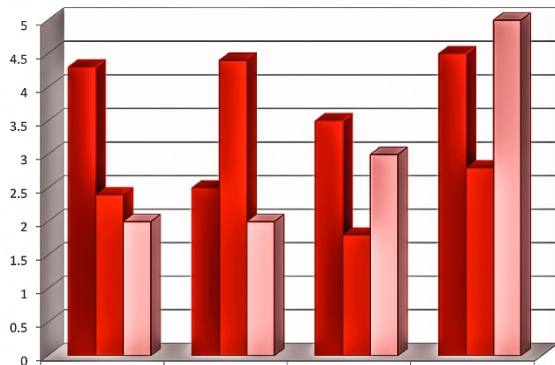

Do: What action/s were piloted/tested, include dates

- *Updated physicians on this PI and the measure requirements- October 2020*
- *Order sets adjusted- January 2021*

Study: What did the data analysis show?

- *The Q1 2021 data showed great improvement for timeliness of administration and physician documentation*
- *Q2 2021 data indicated a need for reinforcement for documenting reasons why Nimodipine was not administered*

Insert one or two graphs at the bottom

Act: What action/s were implemented, include dates

- *Concurrent review process on stroke patients- April 2021*
- *Reviewing Outliers with the Review team on monthly basis- April 2021*
- *Follow up with specific physicians on how they can improve their documentation- May 2021*
- *Report measure compliance to the Neurology Department on quarterly basis – June 2021*
- *Physician education on documentation of reason for not administering Nipmodipine- Aug 2021*
